Bipolar Laparoscopic Instruments

PRODUCT HIGHLIGHTS

- Reusable bipolar instruments work with disposable cords, providing the best performance and value for your facility
- Jaw mechanism allows for precise articulation and position of the bipolar electrode paddle endpoints
- Locking handle feature allows for easy insertion and removal of forceps through trocar cannula
- Bipolar electrode paddles rotate to accommodate easier target application
- Smooth handle operation provides for an optimal tactile feel and mechanical advantage
- Bipolar handle assembly accepts both 35cm and 45cm insert and tube lengths resulting in a significant cost savings
- Modular instruments facilitate ease of assembly and cleaning
- · Electrode inserts can be interchanged in the sterile field
- Molded cord connector prevents the bipolar cord from improper connection into monopolar receptacle
